

Benefits of Multi Tee Competitions

Pace of Play

When players take their tee shot from a tee set too far back for their ability, it's a long game. Moving forward will create a faster and more enjoyable round of golf.

Enhanced Enjoyment

Enhanced enjoyment: Most of us play golf to spend time with friends, get outdoors and have fun! Playing from a distance appropriate to your ability or time commitments will enhance enjoyment, ensure more success and therefore keep people in the game.

Inclusive

Inclusive tees accommodate the unique layers of diversity that exist in people. For example, disability, age or gender identity.

It's Social

This approach allows friends and families to play together from the same tees. For example, a man and woman can play together from the forward tees, or back tees.

Variety and Progress

Golfers can choose to play a longer or shorter course, allowing different challenges and approaches to course management.

Competitions

Having a flexible tee system allows for competitions to be played from any tee with both men and women competing equally.

The Focus is on ability, preference, and choice - not gender
